2. No bonds have been issued or paid during the previous sixteen (16) months.

3. Amounts paid out for District activities included:

a. Dried Up Drainage	\$ 2,375.00
b. Legal Fees	<u>1,078.39</u>
TOTAL	\$3,453.39

4. Assessments for cost collected: 0.00

5. There are no outstanding invoices.

6. Work was done in the district. Dried Up Drainage surveyed for topography and damage to tile system.

7. A review and inspection of the district found the following:

The 12-inch tile at the northern junction box was flowing about ¾ of full depth. It appears that the gravel (crushed stone) around the junction box has been shoveled into a pile upstream of the box.

A major problem was developing north of the north junction box. Willows and other brush were removed.

The Hickenbottom (surface inlet) west of the subdivision is operating well. The southern junction box was full of water to ground level.

The 18-inch tile main has failed from the lower manhole to the outlet - 5,000 feet. There were several blowouts north of the upper manhole.

8. It is the Drainage Board's practice to review the condition of the district on an annual basis and as requested by district residents. All work within the district on district facilities is approved and performed pursuant to Chapter 88 of the Wisconsin Statutes and Chapter ACTP 48 of the Wisconsin Administrative code. I certify that the information contained in the annual report is true.
