5. There are no outstanding invoices for current fiscal year.

6. No work was done in the district.

7. A review and inspection of the district found the following:

Ditch in section 24 almost completely filled with trees. The culvert was blocked with woody debris. At Hammond Road, the CMP (corrugated metal pipe) was flowing about 1/3 full. The ditch is full of brush and needs cleaning. East of Hammond Road the culverts (6-foot dia.) were flowing. Many trees are leaning over the ditch. Buffer strip (~ 100 feet wide) has been installed along the ditch.

At CTH N, flowing about 1/3 full. Brush and trees are a problem. The ditch is very wide.

The district needs attention. A large area of the District is not being farmed on the north end - enrolled in the NRCS long-term wetland restoration program.

The Wileman's (2 projects) have provided cost estimates (\$25,000) to provide outlets to the district main west across Anderson land. An assessment for cost is needed.

8. It is the Drainage Board's practice to review the condition of the district on an annual basis and as requested by district residents. All work within the district on district facilities is approved and performed pursuant to Chapter 88 of the Wisconsin Statutes and Chapter ACTP 48 of the Wisconsin Administrative code. I certify that the information contained in the annual report is true.
